

A Tonic Free from Alcohol

Are you pale, weak, easily tired, and do you lack nerve power? Ask your doctor if Ayer's Sarsaparilla would not be good for you. He knows, and will advise you wisely. Not a drop of alcohol in this medicine. It puts red corpuscles into the blood, gives steady, even power to the nerves; and all without stimulation. Make no mistake. Take only those medicines the best doctors endorse. Ask your own doctor.

Ayer's Sarsaparilla

duties and otherwise materially assisting him.

Where Road Money Goes.

The following is the statement tabled last night showing where the monthly appropriation was spent during last month:

Office expenses	\$ 417.80
Fourth district stables	1,387.85
Fifth district stables	365.04
Carts and wagons	296.98
Sprinkling streets	602.82
Street cleaning	926.19
Ditches (cleaning)	224.67
General Repairs—	
Constructive:	
Allen street, grading, oiling, macadamizing	456.77
Bethel street, grading, oiling, macadamizing	494.49
Fort street, grading, oiling, macadamizing (completed)	11.75
Kaulani school, grading, oiling, leveling	146.91
Pukaki (Mouanui), oiling and patching	229.79
Nuuanu avenue, grading	1,855.16
Punchbowl street, grading and rolling	100.95
Waikamilo road, grading and rolling	473.18
Wylie street, storm sewer trenches	79.60
Pipe house, general	591.51
Trousseau street, grading and rolling	181.09
Quarries	
Kalihi, watchman	40.00
Moiliili, general	1,092.96
"Stray" police	30.00
Tools and hardware	139.64
Machine shop	167.75
Steam roller, general repairs	117.86
Fuel on hand	129.29
Powder on hand	29.56
Road oil account	488.56
Amount set aside for curbing Nuuanu Valley	1,400.00
Balance left over	2.50
Total	\$14,000.00

General Business.

Engineer Gere asked for \$1000 to start on the survey along the belt road. This was referred to the road committee.

Jailer Julius Asch stated that he was unable to pay all the bills as the large increase in prisoners had left him unable to make both ends meet. The ways and means committee are to deal with the matter.

The deputy city attorney turned in a report on the question of the auto stand that is now in Hotel street. He said that prosecutions could be made or the stand could be changed.

O. T. Boardman stated that he wanted a couple of mules that had been condemned by the county to work on his pineapple plantation and would be glad to know when there was to be a sale. Received.

The National Guard asked for leave for members to attend the camp, May 22-27. Special mention was made of the fact that it was essential for the cooks to get away in order to keep up the efficiency of the army.

Petitions were received from the Kalihi and Kapalama improvement club and also in regard to Morris lane, Kapalama. These were referred to the road committee.

ACCOUNTS APPROVED.

The accounts of A. S. Wilcox, guardian of Mary Kauli Nicholas, a former minor, were approved by Judge Robinson yesterday. In the twenty-two years since Wilcox was appointed guardian he received on account of his ward \$477.70 and made cash payments for her of \$130, so that there is \$445.70 to her credit. Mary Kauli Nicholas also owns a lot of land at the corner of Keweenaw street and Wilder avenue, 75,000 square feet, in the heart of the Makiki residence section. She is now twenty-six years old and as the guardian deemed it proper that the property should be delivered to her Judge Robinson so ordered.

Genkow, Mrs. S. Gomez, Miss D. Grooms, Miss B. Hendricks, J. H. Hertsche, C. W. Hodgins, Mrs. B. Holt, Mrs. C. B. Holt, Dr. H. Hordorn, Dr. Joyner, Mrs. C. Keller, Mr. and Mrs. Geo. H. Huddy, Geo. Jones, Mr. and Mrs. H. Kerr, N. M. Lorne, P. J. Layne, Mr. and Mrs. Levy, H. D. Long, A. E. Larimer, F. Mahu and four children.

Dr. R. Marshall, A. Mayer, Miss S. Mayer, H. A. McWayne, C. D. Miner, Mrs. A. C. Mohr and daughter, Rev. M. J. Murphy, G. S. O'Brien, Miss J. Perry, P. A. Peller, Dr. E. J. Reese, Mrs. C. B. Root, J. O. Rothwell, Mr. and Mrs. Russell and child, Miss Nellie Russell, E. H. Shaw, Mrs. J. G. Shaw, M. E. Sherman, Mr. and Mrs. J. S. Spitzer, H. Lo Strang, Miss I. Sullivan, J. J. Sullivan, A. M. Sutherland, Mrs. O. C. Swain, P. W. Terry, Mr. and Mrs. J. Thomas, Miss I. Thomas, Mrs. E. E. Thompson, Mrs. M. F. Tompkins, Miss M. E. Tompkins, Mr. and Mrs. J. Wagner and two children, C. B. Wells, Mr. and Mrs. H. D. Wheeler, Miss A. Wheeler, Miss R. Wiebke, J. Wilson, Hu Wong, Miss E. Woolley, A. Zoffman, Miss L. Zoffman, Harry Bauer and J. von der Lely.

DEATH CALLS FOR J. MORTON OAT

(Continued from Page One.)

nolun was interested. For years he has gotten out a daily sheet devoted to news about vessels, which kept the public informed as to arrivals and departures at ports, including Honolulu. This sheet has been an accurate compendium of shipping and the recognized authority in that class for years.

Joseph Morton Oat was born at New London, Connecticut, on May 14, 1848, and was therefore sixty-three years of age. He came to Honolulu with his father and mother and three brothers on June 19, 1855, and resided here ever since. His father went into the sailmaking business, and upon arriving of age he followed his father in the same business, and later on was identified with T. G. Thrum in the stationary business.

It was while with his father in the sailmaking lot that he became a telegrapher. That is, he received the signals sent by the Diamond Head semaphore and interpreted them. These signals told of the approach of mail steamers and sailing vessels and through its use Honolulu was made acquainted with the news of the coming of the various steamers. Mr. Oat in later years was representative of the San Francisco Merchants' Exchange and received cabled advices of the movements of shipping which had some connection with Honolulu. This work he supervised until his recent illness, and only recently he apologized, in a brief note on one of his daily sheets for failure to keep the record up daily.

Forma Partnership.

In 1876 he went into partnership with T. G. Thrum, the firm being known as Thrum and Oat, the partnership lasting about a year. He entered the Hawaiian postoffice service under Postmaster-General Brickwood, but left that service to open a stationery store under the name of J. M. Oat & Co., which later became the Hawaiian News Company. The store on Merchant street was sold out about two years ago, Colonel Soper opening up a new store in the Young building as the Hawaiian News Company. Mr. Oat then formed a partnership with Alfred Mossman, both of whom had been connected with the Hawaiian News Company for many years, and reopened the old store under the name of Oat & Mossman.

During the time of the Republic of Hawaii Mr. Oat was postmaster-general, and was postmaster under the United States, being succeeded by J. G. Pratt, the present postmaster.

Less than a year ago Mr. Oat, accompanied by his wife, went home to New London to attend a family reunion, where he met a large number of relatives. He returned in September of last year.

Mr. Oat as a boy was known to almost every man, woman and child in Honolulu. He was the first to start the cry "Sail ho!" when a signal was received from Diamond Head. The moment the semaphore there was raised young Oat received it and then from his father's sail loft on Kahuahannu street shouted down the street, "Sail ho!" If it happened to be only an island schooner he was in line for a drubbing, but if it was a whaler, there were "smiles" for it meant news from the "States."

The signals often interrupted games of quoits played by P. C. Jones, Samuel Savidge and other well known kamaaina, young Oat being too young to engage in the game with these older men. He could only sit around and watch them, but he had the satisfaction of knowing he could break up a game by crying out "Sail ho!"

It was on February 23, 1905, that Mr. Oat was succeeded as postmaster by Mr. Pratt. He leaves surviving many relatives in New England, but here there only survives the widow. He has a brother, John Oat, in business in San Francisco.

GIVEN LIBERTY TO GO TO MOTHER'S FUNERAL

Kim Pyeng Kum, alleged bigamist, was let out of jail yesterday evening in order that he might attend the funeral of his mother tomorrow.

The Korean was to have appeared for trial in the federal court today. When the fact that his mother was dead and that he desired to attend her funeral were brought to the notice of Judge Clemons he allowed the man his liberty on his own recognizance and postponed the trial until Monday.

There is not the slightest doubt but that Kim Pyeng Kum will be on hand sharp at the time when court opens Monday. After the legal formalities in connection with his temporary release were gone through in the office of the clerk of the federal court, Gus Murphy warned him very seriously to be on hand, and the Korean vigorously shook his head to intimate that he would be there to face the music.

FIRST AID.

During the warm weather, attacks of diarrhoea are very frequent and often are so swift in their results that life is in danger before a physician can be summoned. Every man who has the interests of his family at heart should keep a reliable remedy in his home for immediate use in cases of this kind. Chamberlain's Colic, Cholera and Diarrhoea Remedy is, without doubt, the best remedy prepared for diarrhoea. It should be given, if possible, at the first unusual looseness of the bowels. For sale by Benson, Smith & Co., agents for Hawaii.

COMMERCIAL NEWS

SUGAR MARKET REVIEW.

With the recent slump in the price of raws in the central market at New York the latest review by Willett & Gray's Weekly, dated April 27, is of special interest. The report is as follows:

Quotations have remained unchanged at 2.92c. per pound through the week under review, and naturally after the extremely large business of the preceding week the market has remained comparatively quiet, on a small trade doing. About 25,000 bags June shipment centrifugals were taken by operators at 2.5-c. c. & f. 9c. deg. (2.98c. per pound) landed.

Other offerings at same price remain without buyers.

Also the offerings for prompt and May shipments at 2.5-c. c. & f. are liberal, but buyers views are not above 2.9-10c. c. & f., the parity of 2.92c. landed.

The weekly Cuba cable gives receipts 36,000 tons for six ports, 60,000 tons entire island, 114 centrals working, against 127 last week, 130 last year and 131 in 1909. Rain is still wanted in some sections, the heavy rains reported this week having been mostly in the western section. It will be noted that the visible production in Cuba to date is 1,165,413 tons, against 1,104,351 tons the same time in 1909.

The total crop of 1909 was 1,513,582 tons. Centrals are not closing down as fast as has been predicted, and less confidence generally is expressed in the smallest crop estimates.

This fact seems to have had some effect in European markets, which have shown a declining tendency through the week, quotations being 10s. 9d. at beginning and changing to 10s. 7 1/2d., and later to 10s. 6 3/4d. at the close, with May at 10s. 6 3/4d. and August at 10s. 8 1/4d. Java cane also declined 1 1/2d. for the week.

In this connection, our Java cable, received yesterday, is important, giving crop estimate of 1,230,000 tons, against previous anticipations of 1,300,000 tons. The last crop returned 1,229,000 tons.

The Cuban deficiency will not receive the help expected from an increased Java crop.

June-July shipment Javas are offered at 10s. 10 1/2d. c. & f. to New York, equal to 4.09c. landed, or parity of beet sugar at 9s. 11 1/4d. f.o.b. Hamburg, against present value of August beets at 10s. 8 1/4d.

P. O. Licht enabled favorably for European beet crop, and as promising 5 to 6 per cent increased sowings in Germany and 4 per cent increase for all Europe over last year.

It is notable that last year the percentage of yield of sugar was considerably higher than the average for the past ten years, so that four per cent increase in sowings may not prove in the end as much importance as will the outturn yield, which can not be estimated at this time.

No feature of importance comes from other countries.

Four ports receipts, 57,579 tons, include 46,000 tons Cubas, 7000 tons Porto Rico and 4000 tons Hawaii. Meltings, 52,000 tons. Stock in U. S. and Cuba together, 530,644 tons, against 518,065 tons last week and 748,270 tons last year.

The final outturn of the Cuba crop will probably be more nearly known before an active demand comes for full-duty sugars.

The parity difference between beet and cane is now 30c. per 100 pounds, slightly less than the reciprocity advantage.

At the close the market has an easier tendency, with buyers reducing bids 1-2c. to 1-16c. per pound.

HONOLULU EXCHANGE.

For the first time in a long while there were no session sales at a meeting of the Honolulu Stock and Bond Exchange. There were a number of sales between boards, but not one at the meeting yesterday. It was the impression among those well posted that this is a time when local investors are waiting for the lull to develop values. One of the explanations for the comparatively slack business at this time, when reports from all of the plantations are excellent, is that the cholera scare has driven away hundreds of mainland buyers, as well as a good many local men more or less interested in Hawaiian securities. This has greatly affected business here, which is further hurt by the quarantine.

Dividends were declared yesterday by the Hutchinson Sugar Plantation Company of ten cents a share, while the Waiuku Sugar Company announced \$1 a share as its dividend this month.

While no record is made on either exchange of a sale of 2000 shares of Honolulu Consolidated Oil stock at \$2 a share, it is stated that this is because while it is registered on the Hawaiian exchange the transaction was conducted by a member of the Honolulu exchange. The reported sale shows an advance in this stock from 1.075.

The sales on the Honolulu exchange yesterday were as follows:

Between boards:
Ewa Plant. Co., 120 at \$1.00; 5 at \$1.00; 10 at \$1.00.
Hilo Ry. Com. 1000 at \$8.75.

HAWAIIAN EXCHANGE.

Mountain King mining stock came out of its hole yesterday and the Hawaiian Stock Exchange reported the sale of 100 shares of this once rich stock at the small price of 95 cents. Recent reports from the Coast state there has been a strike in this mine and a cleanup of \$5000. If true this is good news for the heavy holders of stock in this city, but the price quoted is not very encouraging. The sales were as follows:
Hon. B. & M. Co., 15 at \$1.75.
Mountain King M. Co., 100 at \$5.

FORMOSAN SUGAR.

Advices from Japan give the following: A telegram has reached Tokyo to the effect that the Ensuiko Sugar Refining Company of Formosa, has signed a contract to supply a Canadian sugar merchant at Vancouver with 16,000 bags (about 1000 tons) of crude sugar as a trial engagement. The export of

Formosan sugar to Canada, says the Mainichi, has long been talked of, and it has now at last been realized. The associated crude sugar producers of the market of their sugar need not necessarily be confined to China, and state that they will enter in competition in India with Java sugar. It may not be a difficult task for Formosan sugar to be offered in Canada side by side with the Java product if no higher duty is imposed and reasonable freight is charged.

Formerly a prohibitive duty was imposed on sugar imported into countries, belonging to the Sugar Union of Brussels from any country not in the Union. Last year the British government decided not to impose a prohibitive duty on crude sugar imported into Great Britain and her possessions from Japan, so that no hesitation should be shown in exporting crude sugar to British territory.—Willett & Gray's Weekly.

SPECKELS' PREDICTION.

NEW YORK, May 1.—Claus A. Speckels, president of the Federal Sugar Company, is of the opinion that the sugar market is in a more stable condition than at this time a year ago and that from now on through the season prices will exhibit an upward tendency.

"Owing to the shortage of the present Cuban crop," said Mr. Speckels, "which will be between 350,000 and 400,000 tons smaller than last year's, the price of raws has been working upwards, and I think it will continue to do so. With the advent of the warm weather quotations on refined always advance and I look for a good season for the refiners. The plants of the Federal company are working at full capacity and will probably be run at the same rate until October or November, as will other refineries."

"The present world's visible stock of sugar totals about 3,180,000 tons, as compared with 2,950,000 last year, but the United States and Cuba alone have only 518,065 tons or 216,035 less than at this time in 1910, so the surplus is in Europe. There current prices are somewhat above these here, but they will gradually balance. In the Far West prices have been the same as in New York since we broke the ruling quotations by shipping a cargo of 30,000 barrels to the Pacific Coast via the Horn. We may repeat this action when prices warrant such a move."

Relative to the commercial situation in California, from which State Mr. Speckels recently returned, he said general conditions were considered quite satisfactory, with every one optimistic, and the Panama Exposition and its probable results the ruling topic of conversation.

Although several months ago Mr. Speckels expressed the intention of building a refinery in California, he says now that, owing to the low prices ruling in the Coast territory it would not be wise. All the Hawaiian raws received at San Francisco are contracted by the American company.

NEW SUGAR MILL.

Reports have been published of the organization on April 8th of the Sanford Clarifying and Separating Co.; capital, \$2,500,000. The company proposes to manufacture sugar and syrups and to use the recently invented Sanford process of clarifying in so doing.

Temperature at New Orleans: Maximum, 84 deg.; minimum, 60 deg. F.

INQUIRY MADE FOR HAWAIIAN COTTON

The cotton industry in these islands has attracted attention in New York and Secretary Wood of the promotion committee has received a letter from Emmet L. Woodson, official grader for the New York Cotton Exchange. He asks for samples to be sent him and also for statistics in connection with the industry. Wood hopes that some of our cotton growers will forward samples of their product.

Woodson writes: "M. E. Covington (a cousin of mine) of your city gave me a very interesting account of the wonderful resources of your islands. I was particularly interested in the cotton production in which he was not sufficiently posted to give me the information I wanted, so he suggested me writing to you. I was raised on a cotton plantation and have been identified with the business all my life. For nearly eleven years I have been official grader or classifier for the New York Cotton Exchange. Our committee classed last year 1,035,759 bales. I have had propositions to go to Cuba and Hayti to make a market so as to stimulate cotton production. I am seriously contemplating going to some of the new countries where cotton is produced. There is quite a field opening up in portions of California."

"From what Mr. Covington tells me of the quality grown in your country I am led to believe it is superior to that in the countries named."

"I would be very pleased if you would send me samples of your different qualities, as large as your two flats, that have been ginned or prepared for market so I can form some idea of the staple and probable value, then I could judge where such cotton could be marketed to the best advantage. Also all the statistics obtainable as to the amount probably marketed yearly, where sold, price, etc."

Hurt on Honolulu.

Ah Sing, a part Chinese Hawaiian stevedore, was hurt yesterday while working on the Honolulu. A bag of sugar fell upon his head, necessitating his being treated at the Queen's Hospital.
